

INTRODUCTION TO DFCE 2026

The **Digital Future Conference and Exhibition (DFCE) 2026**, organised by the Authority for Infocommunications Technology Industry of Brunei Darussalam (AITI), is Brunei Darussalam's leading platform for advancing dialogue and collaboration on digital transformation.

DFCE 2026 will be held over three days and will comprise two conferences: the **Future-Ready Digital Technology Conference**, taking place on **4–5 August 2026**, and the **Future-Ready Digital Skills Conference**, taking place on **6 August 2026**.

Under the theme **"Together towards a Digital Brunei: Innovate, Empower, Transform"**, the event will bring together government leaders, regulators, industry representatives, academia, technology providers and other key stakeholders.

DFCE 2026 will focus on six priority areas: **Artificial Intelligence, emerging technologies, personal data protection, online safety, digital content and future-ready digital skills**. Through presentations, panel discussions and networking opportunities, the event aims to encourage knowledge-sharing, showcase practical solutions and strengthen collaboration across the digital ecosystem.

The exhibition will provide participating organisations with an opportunity to showcase products, services and innovative solutions to a targeted audience. Exhibitors will also be able to strengthen brand visibility, connect with potential partners and clients, engage with industry and government stakeholders, and explore new opportunities for collaboration within Brunei Darussalam's growing digital ecosystem.
